The Market I Radars managed to achieve the same by using endless vital and relevant concepts, contexts, meanings, understandings, clarity, principles, frameworks, foundations, purposes, causes, observations, essences, ideas, designs, discoveries, wisdom, realities, mysteries, consciousness, realities, dimensions, simulations, time, formulas and chemistry of existence and God's design, workings and simulation.

**The full Market I Radars full document for the Infinite Purity Transport** which has more than one hundred sections for unlocking the greatest grand mysteries, formulas and workings of the Infinite Purity Transport will be available as per the request of customers on the address mentioned at the end of the document. The below is an executive insight, introduction, strategic blueprint, grand scheme and summary document

## 2) Executive Summary and Blueprint of the Infinite levels of Transport

The Market I Radars for Infinite Purity Transport clearly understand that God's Source Code for existence is the same for humanity, all other beings and all the infinite ingredients in existence except that the only difference and variation is in the initial onset fixed level of consciousness when coming in to existence (but with perfect and equal balance, fairness, possibilities, opportunities, options, capabilities and potentials) only for the purpose of giving each and every humanity, other beings and all ingredients in existence to observe, witness and understand initially the infinite levels of consciousness dimension, reality, simulation, state of being, time, wisdom, purpose, experience and exposure throughout the infinite universe and at a later stage to chose their path upon their freewill; which means one specific human, being or ingredient embodies all the infinite levels of elements in existence and in the same approach it applies and works for the Infinite levels of Transport where it consists of all the Infinite levels of Transport existence elements and ingredients.

As opposed to the centuries old and beyond assumption, narration, fabrication, projection, teaching and preaching that there exist only a few dimensions, realities, simulations, state of being, time and consciousness of humanity, beings, existence and every other element, parameter, ingredient and package which are mostly focused on matter, material, physical, exterior, surface level, external layer, outer contexts and realizations and moreover each and every existence, humanity, being and other elements and ingredients by nature are separated, different, nonidentical, disintegrated, misaligned, non-harmonized, departed, disconnected, divided, split, classified and vary in design, foundations, formulations, workings, looks, shapes, equality, capabilities, potentials, understanding, characteristics, biology, chemistry, physics, sciences and all aspects.

The above narration and understanding has continued to be the overwhelming story still to this date for the reasons that in one hand Satan, dark forces and their agents will have a suitable environment, position and circumstance to influence, manipulate, discriminate, govern, occupy, enslave, imprison, limit, restrict, control and continue to take ultimate authority and say over humanity and other beings' biology, chemistry, mind, heart, energy, resource and spirit by creating, designing, fabricating, narrating and weaponizing endless and unlimited horizontal classifications, identifications, separations, competitions, divisions and groupings across a number of agendas like color, shape, look, profession, blood, IQ, weight, beauty, size, body, food, drink, job, profession, capability, intelligence, brand, product, economy, technology, wealth, finance, infrastructure, resource, land, water, border, service, sector, discipline, subject matter, language, clothing, shelter, culture, habit, tradition, history, luxury, education, health, race, ethnicity, city, country, village, poverty, scarcity, market, speculation, background, personality, character, politics, government,

specialization, hobby, addiction, attachment, dependency, media, sport, gender, age, asset, possession, fashion, ART, choice, talent, skill, religion, faith, interest, entertainment, game, film, music, literature, thought, feeling, perspective, experience, decision making, action, livelihood and other endless variations, separations and classifications.

And on the other hand to greatly undermine the full and infinite wonder and purpose of creation and existence in doing so to discredit the design argument and at the same time to leave no option and space for the case and cause of God by continuously painting and demonstrating the picture of unfairness, injustice, luck, bias, disorder, chance, random, inequality, scarcity, limitation, suffering, misery, cheating, theft, depression, suicide, killing, greediness, purposelessness, separation, doubt, suspicion, disinformation, denial, isolation, destruction, fear, worry, exhaustion, inferiority, dissatisfaction, difficulty, discomfort, hunger, famine, sickness, disease, conflict, struggle, poverty, discrimination, enslavement, war, disagreement, hate, anger, discomfort, death, revenge, scandal, corruption, disaster, sorrow, regret, confusion, hopelessness and other endless negative lists forgetting the fact that the existence of three states of being for every existence which are the Infinite levels of Purity Existence, the infinite levels of Neutral Existence and the Infinite levels of Impurity Existence which means they are only talking about the state of being within the scope of the Infinite levels of Impurity Existence in this case the Infinite levels of Impurity Transport which is the version and sate of being of impurity, sin and curse under the grand scheme of God's design, workings and simulation by purposely and systematically hiding the other higher levels of state of beings which are the positives, preference and will of God filled with purity, virtues, righteous, honors, elevation, miracle, blessing, eternity, oneness, abundance, satisfaction, fulfillment, transcendence and endless mysteries of which any of the three state of beings are chosen upon the freewill of humanity and other beings.

The purity Market I Radars clearly understands the above initial foundation, source code and design for the existence and operation of the Infinite levels of Transport abundance, existence, eternity, oneness, harmony, entanglement, convergence, synchronization and alignment; which means humanity and other beings are automatically and unconditionally offered and embody the capability and potential to enjoy the Infinite levels of Purity Transport given the fact that they are in harmony, alignment, convergence, oneness, singularity and synchronization with the Infinite levels of Purity Transport protocols, elements, packages and ingredients.

Contrary to the above in one hand humanity and other beings upon their freewill choice can separate and distance themselves and go to the state of being of the Infinite levels of Impurity Transport where they end up to live negligible, insignificant, lowest, limited, conditional, volatile, cursed and imprisoning life throughout their shortest life span with the lowest, negative and Impurity Transport dimension, consciousness, time, reality, simulation, wisdom and experience and on the other hand humanity and other beings upon their freewill

choice can remain and bond themselves and enjoy the state of being of the Infinite levels of Purity Transport where they end up to live eternal life span and with limitless, unconditional, unshakable, virtuous, righteous, blessed, positive, the highest and Purity Transport dimension, consciousness, time, reality, simulation, wisdom and experience. And as a last resort humanity and other beings can choose to be within the state of being of the Infinite levels of Neutral Transport where they end up to live relatively average life span and with the average Neutral Transport dimension, consciousness, time, reality, simulation, wisdom and experience.

The moment humanity and other beings regain the depth of clarity, chemistry, formula, understanding and workings of God's Source Code for oneness preference which is the Infinite levels of Purity Transport out of all God's permitted Infinite levels of Transport options, possibilities, alternatives, potentials, opportunities, dimensions, realities, simulations, state of beings and choices that exist within the source code; then the centuries long and beyond quest to activate, secure and experience the Infinite levels of Purity Transport would come to a close after so much exhaustion, suffering, dedication, commitment, misery, pain, struggle, sin, confusion, narration, distortion, fear, frustration, investment, trial and error, loss, regret, inflammation, disease, relentless, sacrifice, ignorance, darkness, speculation, stress, contradiction, sleepless, analysis, formulation, design, execution, prediction, eagerness, expectation, argument, thought, philosophies, ideas, intervention, medicine, treatment, surgery, simulation, research and endless efforts and attempts.

But the genuine attempts and efforts has been only carried out by the few humanity as it isn't in the best interest and desire of Satan and evil forces for humanity and other beings to secure the state of being of the Infinite levels of Purity Transport; on the other hand almost all of humanity and other beings were victims of the current and beyond centuries long purposely designed complex programs that were instrumental to make sure humanity and other beings continue to operate and function in the Infinite levels of Impurity Transport.

The Market I Radars for the Infinite Purity Transport clearly understand the fact that the existence of Infinite levels of Transport contrary to the centuries and beyond long belief, conviction, norm, narration and understanding of the existence of only a few options with limited scope, out of the Infinite levels of Transport, which all **are standardized, preached, mentored, consulted, narrated, projected, taught, understood, cultured, disseminated, organized and measured within the upper layer, surface level, exterior, material, outer part, the lowest, insignificant, negligible, negative and attaching contents, contexts, perspectives, dimensions, simulations, consciousness, time, realities, meanings, substances, purposes, causes, wisdom and related that continue to be adopted by all societies, scholars, researchers, scientists, individuals, countries, religions, cultures, traditions and beliefs in the world;** which as a result become the core causes and reasons, for centuries and beyond, for many humanity and individuals continue

to fail and become helpless to practically internalize, execute, embody, align, integrate, harmonize, converge and stay in connection with God and shift from their Impurity Transport lives even if many tried their best to understand, follow and execute the general agreed norms, understandings, practices and guidelines and more specifically few of humanity genuinely attempted the same for decades and continue to fail again and again.

The above continues to be the case to this date; it is because of the fact that, out of endless causes, humanity and other beings are operating and functioning on the below challenges and difficulties:

- the continued existence and reality of the lack of an in-depth understanding, wisdom and clarity in the workings, consciousness and design of Infinite levels of Transport;

- the endless levels of Transport based horizontal identifications, classifications, competitions, discrimination, undermining, arguments, conflicts, hate, extremism, anger, distraction, distortion, plotting and the race for winning by discrediting the other rather than focusing on the vertical purpose of attaining, securing and having Purity Transport;

- the ever rising association, occupation, attachment, addictions, dependency, priority, desire and the race for grabbing the insignificant, sinned and temporary external material, finance, money, wealth, property, asset, shiny look, greediness, possession and related lists by many humanity rather then the path towards the attainment of Purity Transport;

- the ever increasing fall of scholars, mentors, elders, religious and faith leaders, preachers, researchers, agenda setters, media, celebrities and followers, knowingly and unknowingly, in the wrong trap of purposely and systematically designed complex programs, principles, narrations, strategies, frameworks, foundations and philosophies designed and masterminded by Satan, evil forces and their agents for making sure humanity and other beings continue to be separated from God and operate on their sinned lives and Impurity Transport;

- the wrong messages, preaching and teachings by faith and religious leaders and scholars as if the path towards having Purity Transport is very complex, requires sacrifice, demand long journey to attain, faced with many discomforts and obstacles, extended waiting and patience,

- the endless lists of wrong messages, norms and practices like big virtues and rewards come after death, ultimate peace and happiness is secured in another life, judgement is given in the end, life at earth is only for a temporary purpose and endless messages and narrations that continue to distract and drag humanity not to take decisive, serious, careful and practical choice and action to shift towards the attainment of Purity Transport;

- the misinterpreted, distorted and diverted promises, knowingly and unknowingly, that humanity can gain Purity Transport and subsequent honors if they only continue to follow the usual daily, weekly, monthly and yearly subscriptions and attachments of medicines, mentors, counselors, psychiatrists, gym, churches, mosques and related addictions accompanied by various rituals, programs, attendance, followup, learning, payments and various doings which isn't the case to this date after centuries and millennia practices;

- out of the Infinite levels of Transport's mandatory and essential elements, ingredients and packages only a few are ingrained in almost all of the counselling, mentor, consulting, coaching, teaching, preaching and religious texts, dogma, culture and tradition; most of the teachings and preaching are focused and given to suit and comfort their followers for the sake of of keeping them and at the same time to attract new followers by deliberately sidelining and leaving the teachings of huge lists of sins and the Infinite levels of Impurity Transport workings;

- out of the Infinite levels of channels, alignments and protocols to attain Purity Transport only verbal and reading methods are adopted by many counselors, mentors, coaches, faiths and religions and that is why many of their followers are continuously subjected to many wrong doings, evil exercises, sinful acts and Impurity Transport;

- the day to day addiction, attachment, dependency and association of humanity with infinite levels of Impurity Transport that subject them to various restriction, limitation, imprisonment, enslavement, influence, manipulations, bias, unfairness, injustice, inequality, judgement, sabotage, downgrading, harm, anger, stress, inflammation, anxiety, misery, sorrow, regret, ego, pretending, scandal, corruption, denial, confrontation, unfaithfulness, impatience, purposelessness, fatigue, rigidity, ignorance, doubt, confusion, distraction, disturbance, war, weakness, fear, distrust, immorality, revenge, scarcity, rejection, meaninglessness, hopelessness, difficulty, obstacle, disrespect, disinformation, distraction, dis focus, draining and other endless gradual killing elements;

- the lack and absence of even a few individuals for centuries to showcase and demonstrate to humanity with enough clarity, simplification, formula and chemistry the grand scheme of God's workings, designs, consciousness, simulations and realities and what it takes to secure the ultimate, unconditional, unshakable, virtuous, righteous, blessed, eternal, permanent, elevated, the highest and Infinite levels of Purity Transport

- and endless reasons, causes and justifications for the continued failure of having Purity Transport.

## 3) The Grand Scheme Summary of the Three States of Being of the Infinite levels of Transport

To curb and rectify the above list of centuries old challenges and problems one has to start to understand, have clarity, gain knowledge and secure wisdom on the detail designs, workings, consciousness, chemistry and formula of the three states of beings of the Infinite levels of Transport which are called the Infinite levels of Purity Transport, the infinite levels of Neutral Transport and the Infinite levels of Impurity Transport.

- There is an existence of infinite, unlimited, endless, continuous and eternal levels of Purity Transport elements, sub elements and Infinite levels of sub elements and as per God's design, workings and simulations and every humanity , or being, or existence consists of all the existence in it as opposed to the centuries old and beyond information that only dictates the availability of very restricted and limited quantity, level, scope, dimension, simulation, reality and experience of creation and its existence which was purposely designed, crafted, planned, formulated, staged, narrated, propagated and weaponized to discredit and undermine the existence of God and at the same time to keep humanity and other beings under their influence, manipulation, control and authority

- The consciousness is the differentiating factor within the endless lists of the Infinite levels of Purity Transport and within the source code of God's design, simulation and workings of all existence, everything is one and the same except that the consciousness is the sole factor for each and every existence to have different Infinite levels of Existence or Creation Consciousness at birth for Infinite levels of purpose, cause and experience so that humanity and other beings upon their freewill, choice, experience, understanding, clarity and Faith to move either to the state of being of the Infinite levels of Purity Transport, or to the state of being of the Infinite levels of Neutral Transport and or to the state of being of the Infinite levels of Impurity Transport

- The Infinite levels of the Purity Transport products coming to market do have endless unique benefits and value propositions from all the current and centuries beyond long market that is entirely based on the state of being of the Infinite Impurity Transport and accordingly some of the key differentiating market factors are: there is no competition on the global market to this date; the Infinite Purity Transport products will only continue to be in the global market until humanity and other beings do have the right clarity and understanding of the detail workings, functioning, formula and chemistry of the Infinite Purity Transport product; the Infinite Purity Transport products are not based on any attachment, dependency and external associations; the Infinite Purity Transport products are not based endless subscriptions and addictions as their service will come to an end the moment humanity and other beings understood the design and workings behind; the Infinite Purity Transport products are not presented as material brands and subsequent dependencies from the manufacturer as only contents and contexts are presented to the market; the Infinite Purity

Transport products don't discriminate access to the market based on any kind and forms of identification and classification; the Infinite Purity Transport products don't have behind the scene influence and control agenda; the Infinite Purity Transport products are solely based on the purpose of liberation and independence of humanity and other beings from centuries beyond long trap of suffering and imprisonment; the Infinite Purity Transport products are guided and under the guardianship of God and the Infinite Purity Transport products operate on the deepest and highest levels of of dimensions, consciousness, simulation, time, experience and reality

- When humanity and other beings are within the state of being of the Infinite levels of Purity Transport they have to see, listen, observe, sense, feel and experience the following symptoms, occurrences, happenings and habits in each moment, second, hour, day, week, month, year and throughout their lives which a few them are the utmost, ultimate, continuous, elevated, eternal, permanent, flawless, positive, fulfilling, transcending, unconditional, unshakable, virtuous and righteous Purity Faith n God happiness, Purity Transport courage, Purity Transport love, Purity Transport respect, Purity Transport generosity, Purity Transport abundance, Purity Transport wisdom, Purity Transport wealth, Purity Transport confidence, Purity Transport certainty, Purity Transport consistency, Purity Transport trust, Purity Transport beauty, Purity Transport marriage, Purity Transport kids, Purity Transport health, Purity Transport Immortality, Purity Transport healing, Purity Transport intelligence, Purity Transport clarity, Purity Transport observation, Purity Transport non-judgement, Purity Transport accountability, Purity Transport miracle, Purity Transport forgiveness, Purity Transport reconciliation, Purity Transport purpose, Purity Transport honesty, Purity Transport thought, Purity Transport opportunity, Purity Transport essence, Purity Transport simulation, Purity Transport strength, Purity Transport Freedom, Purity Transport limitless, Purity Transport Grace and other endless symptoms and realities of the Infinite levels of Purity Transport symptoms

- Overall your total measurement and live score of your Purity Transport at any give time will be =

  100%(the sum of your actual score of each of the Infinite levels of Purity Transport elements which is Purity Transport element one + Purity Transport element two + Purity Transport element three + Purity Transport element four + ..Infinite Purity Transport elements))/(the sum of the ideal, perfect and maximum value of each of the Infinite levels of Purity Transport elements which is Purity Transport element one + Purity Transport element two + Purity Transport element three + Purity Transport element four + ..Infinite Purity Transport elements))

## b) Summary of the Infinite levels of Impurity Transport

The Infinite levels of Impurity Transport is characterized and channeled by separation, difference, non-harmonization, misalignment, in-synchronizations, non-convergence, limited, cursed, conditional, shaky, non-bonded, temporary, lose, momentarily, imprisonment, enslavement, dependency, upgrading, decelerating, aging, draining, imbalance, descending, non-elevating, disorder, purposelessness, causeless, revenge, conflict, locking, hell, sin, unrighteous, non-awakening, unwholesomeness, competition, downward, disintegrating, in-comprehensive, time consuming, complexity, struggle, non-peacefulness, selfishness, corrupted, imperfection, impurity, fake, audit, devaluation, non-measurement, non-adjustment, dishonor, disrespect, unappreciative, avoidance, unfulfilled, meaningless, essence-less, doubt, dilemma, suspicion,, disbelief, inconsistency, distrust, in-confident, fear, weakness, non-aliveness, non-determination, non-commitment, confusion, judgement, ordinary, usual, traditional, non-discovery, deactivating, disconnectedness, linear and one at a time, valueless, immoral, unethical, division, inequality, arrogance, hate, cruelty, unkindness, unfairness, injustice, scarcity, abuse, manipulation, unsatisfactory, anger, invalidation, disloyalty, senseless, under the influence and control of Satan and other endless elements, parameters, ingredients and packages of the Infinite Impurity Transport.

Besides below are the key differentiating factors of the Infinite levels of Impurity Transport from the other states of beings and more or less similar to the centuries beyond long preaching, teachings, beliefs, thinking, assumptions, frameworks, principles, foundations, strategies, models, programs, designs, observations, purposes, causes, perspectives, norms, narrations, understanding, convictions, workings, experiences and practices when it comes to the reality that both operate and function in the negative, sinned and Impurity Transport except that the Infinite levels of Impurity Transport operates in an infinite levels of dimensions, simulations, consciousness, time, realities and experiences as opposed to the centuries long and beyond practices which are limited on a few scopes, options, possibilities, alternatives, dimensions, consciousness, time, realities and simulations:

- The Infinite levels of Impurity Transport state of being is the negligible, negative, volatile, sinned, cursed, darkened, impure and the lowest level of preference and will of God for humanity and other beings to operate, function and live

- The highest levels of separation, divergence, split, non-synchronization, non-harmony, misalignment, non-integration, division, dishonor, non-fulfillment, dissatisfaction, isolation, powerlessness, misery, non-ownership, incompatibility and distance from God and all existence is realized in the Infinite levels of Impurity Transport

- In the Infinite levels of Impurity Transport hell, judgement, punishment, penalties, fall, suffering, sin, curse, denial and separation away from God is

continuously available, accessible and happening in every moment, second, hour, day, week, month, year and throughout the shortest life span starting from birth; as opposed to the centuries old and beyond narration, preaching and teaching as if they are accessible only after death

- In the Infinite levels of Impurity Transport everything is time consuming, linear, one at a time, exhaustive, imperfectly aligned, costly, ordinary, surface level, material oriented, difficult to access, very gradual, normal, thinkable and imaginable scenes, unreachable consciousness and wisdom, never ending complexities, undreamed and unthinkable rescue interventions and workings of God, limited touches of beauty and nature realities, restricted marvels and limited purpose dimensions, happiness and peace scarcity, temporary simulations, rare love and faith driven experiences and so much more

- There is an existence of infinite, unlimited, endless, continuous and negligible levels of Impurity Transport elements, sub elements and Infinite levels of sub elements and as per God's design, workings and simulations and every humanity, or being, or existence consists of all the existence in it as opposed to the centuries old and beyond information that projects the availability of very restricted and limited quantity, level, scope, dimension, simulation, reality and experience of creation and its existence which was purposely designed, crafted, planned, formulated, staged, narrated, propagated and weaponized to discredit and undermine the existence of God and at the same time to keep humanity and other beings under their influence, manipulation, control and authority

- The consciousness is the differentiating factor within the endless lists of the Infinite levels of Impurity Transport and as per the source code of God's design, simulation and workings of all existence, everything is one and the same except for those who chose to distance and separate themselves away from it and consciousness is different for each and every existence to have different Infinite levels of Existence or Creation Consciousness at birth for Infinite levels of purpose, cause and experience so that humanity and other beings upon their freewill, choice, experience, understanding, clarity and Faith can move either to the state of being of the Infinite levels of Purity Transport, or to the state of being of the Infinite levels of Neutral Transport and or to the state of being of the Infinite levels of Impurity Transport

- When humanity and other beings achieve the highest and negative consciousness they will be in the highest levels of Impurity Transport out of the Infinite levels of Impurity Transport and when they are in the lowest and negative consciousness they will be in the lowest levels of Impurity Transport out of the Infinite levels of Impurity Transport

- When humanity and other beings are within the state of being of the Infinite levels of Impurity Transport they will be forced to acquire external support, help, favor, influence, connection, finance, knowledge, information, guidance,

advice and mentor as they are accompanied by scarce, costly and continuous struggle, exhaustion, hard work, attempt and trial and error to gain all the infinite scarcity of every existences, elements, ingredients and packages and at the same time they are continuously denied, prevented and punished for the the same by moving contrary to the grand scheme of oneness design, working and simulation whenever they attempt to acquire; moreover they will be affected by whatsoever external conditions, situations, scenarios and circumstances because of the fact that in one hand they are operating and functioning at the Infinite levels of Impurity Transport dimensions, consciousness, simulations, realities and time which are reachable and accessible by Satan and dark forces and on the other hand they are not continuously guarded, protected, guided, insured and under the guardianship of God except for certain extreme conditions

- Every humanity and beings within the state of being of the Infinite levels of Impurity Transport can freely, unconditionally, easily, continuously and instantly access, own, use, control and experience all Impurity Existence and subsequently design, simulate, run, operate, govern and execute their attained version level of the Infinite levels of Impurity Existence as per the grand scheme of God's Infinite levels of separation, division and misalignment design, consciousness, reality, dimension an simulation

- The initial source code design, simulation and workings of God makes it very difficult, hard, exhaustive, challenging, dragging and paining when humanity and other beings intend to talk, think, feel, imagine, visualize, discuss, interact, communicate, coordinate, focus, strategy, select, prepare, formulate, analyze, contemplate, decide, design, plan, conspire, plot, act and execute sin and Impurity Transport every time and every moment because they will be automatically and continuously met with self: dragging, distracting, doubting, confusing, fearing, worrying, conflicting, depressing, stressing, suffering, blurring, angering, corrupting, hating, weakening, attaching, restricting, limiting, imprisoning, dis-empowering, sickening, suffocating, suffering, disturbing, draining, restraining, inflicting, emptying, defeating, unpleasing, disrespecting, cursing, attacking, regretting, annoying, revenging, exhausting, unbalancing, darkening, punishing, complicating, distorting, failing, contradicting, downgrading, down-lifting, unfulfilling, unsatisfying, unsettling, preventing, rejecting, disabling, arguing, minimizing, sabotaging, retarding, dragging, abusing, locking, deactivating, malfunctioning, non-cooperating, disorganizing, deafening, blinding, distrusting, disbelieving, non-aligning, threatening, scaring separating, dividing, resource depriving, decaying, aging, killing and endless natural, biological, judgemental, natural, chemical, physical, neurological, circular, cellular, hormonal, organically, physiological, psychological, genealogical, energetically and spiritually reactions; which is emanated from God's utmost love and respect for humanity and other beings for them to stay away of the Impurity Transport and sin by continuously sending warning, teaching, directing and punishing signals to every detail sins they continue to commit and for the purpose of shifting them towards the state of being of the Infinite levels of Purity

Transport upon their freewill contrary to the centuries old and beyond understanding, narration and projection of portraying God as cruel , merciless and punishing creator knowingly and unknowingly but with all these endless lessons, warnings and penalties humanity and other beings continue to be entirely immersed for generations within endless sins, Impurity Transport and shortening their life spans

- Humanity and other beings within the state of being of the Infinite levels of Impurity Transport freely, unconditionally, easily, continuously and instantly receive, access, use, adjust and balance the Infinite levels of negative and positive biological, chemical, neurotically, physiological, psychological, cellular, circular, spiritual and other intuition, instinct, dream, signs, signals, symbols, messages, insights and protocols in one hand for the purpose of shifting and transitioning them to the state of being of the Infinite levels of Purity Transport, on the other hand to upgrade and elevate their position and level upward within the ladder of the Infinite levels of Impurity Transport and at last to awaken them whenever they momentarily shift downward within the ladder of the state of being of the Infinite levels of Impurity Transport so that they can transition back to their original state of being position by continuously receiving all the changes, alerts and signals through the instruments and mechanisms of the Infinite levels of negative and positive biological, chemical, neurotically, physiological, psychological, cellular, circular, spiritual and other intuition, instinct, dream, signs, signals, symbols, messages, insights and protocols

- When humanity and other beings are within the state of being of the Infinite levels of Impurity Transport there is difference and separation between us and them, between self and others and between l and you as within this state of being everything disintegrate to infinite divisions as a result continuous negative, incompatible and punishing biological, chemical, neurotically, physiological, psychological, cellular, circular, spiritual and other intuition, instinct, dream, signs, signals, symbols, messages, insights and protocols surface reminding their continuous presence within the state of being of the Infinite levels of Impurity Transport; but when moved upward to the sate of being of the Infinite levels of Purity Transport the oneness and convergence will automatically and instantly surface and as a result endless continuous loop of positive, compatible and rewarding biological, chemical, neurotically, physiological, psychological, cellular, circular, spiritual and other intuition, instinct, dream, signs, signals, symbols, messages, insights and protocols appear and surface which are the root causes and reasons for humanity and other beings to be continuously embodied with endless comfort, simplicity, easiness, relaxation, happiness, love, forgiveness, courage, strength, fullness, hopefulness, coordination, purposefulness, inspiration, acknowledgement, acceptance, confidence, guidance, healthy, cure, healing, longevity, heaven, purity, abundance, freedom, easy, smooth, soft, flow, dynamic, peaceful, bright, humility, wisdom, illumination, detachment, independence, moral, ethical, clean, reconciliation, clarity, sure, definite, loyal, integrity, respect, value, significant, meaningful, integration, harmony, virtue, heaven, beauty,

Those humanity and other beings that don't continuously and non-stop embody, embrace, posses, experience and live the above mandatory essential Infinite levels of Purity Transport elements are suffering, struggling, limited, restricted, separated, blocked, protected, deactivated, imprisoned, enslaved, blinded, deafened, shielded, influenced, biased, manipulated, controlled and continue to live in every moment, second, hour, day, week, month, year and throughout their negligible and Impurity Faith life under survival, emergency, cursed, sinned and scarcity mode as per the desire, delight and purpose of Satan, dark forces and their agents. At the same time those humanity and other beings will be only eligible to face ans suffer the lowest, negative, continuous, uninterruptible, shaky and Impurity Transport punishment, penalty, curse, scarcity, sin, hell, downfall and dishonor as they chose and decide, upon their freewill, to move and live with the non-preference and negative direction, path, guidance, guardianship and will of God rather that is best suited and compatible with the version of God's source code and design of separation, difference, division, greediness, scarcity, conflict, competition, disagreement, misalignment, disintegration, non-synchronization, divergence, doubt, suspicion, random, isolation and non-ownership from all existence and creation only available for those in the state of being of sinning as a sign of punishment and penalty for the sins they are continuing to commit and at the same time for their subsequent shift, transition and return to the state of being of the Infinite levels of Purity Transport which they are best suited and compatible with; as they continuously and non-stop think, feel, observe, imagine, focus, visualize, channel, select, decide, act, experience and live throughout their insignificant Impurity Faith life to embrace, embody, converge, bond, align, synchronize and become compatible with the desire, purpose and goal of Satan and dark forces which are the Infinite levels of Impurity Transport's conditional, shaky, sinned, cursed, deactivated, locked, non-elevated, temporary, volatile, harmful, negative, insignificant, imprisoned, dependent, non-cleansed, imperfect, impurity, unholy, dirty, unessential, darkened, emergency and survival

functioning, non-mandatory and meaninglessness elements, ingredients and packages of the Infinite levels of Impurity Transport elements.

And that is why centuries long and beyond attempts and trials by humanity and other beings to lead, attain and secure meaningful, purposeful, virtuous, righteous, blessed, elevated, significant, eternal, pure, heavenly, peaceful, fulfilling and holy life always continue to fall on the contrary accompanied by conflict, war, disagreement, separation, doubt, suspicion, revenge, attack, plot, corruption, confusion, darkness, distraction, destruction, sickness, pain, disease, fear, anger, worry, hate, contradiction, confusion, failure and dissatisfaction as they continue disregard and reject to embody, embrace, integrate and bond the vital, critical and oneness elements, ingredients and packages of the Infinite levels of Purity Transport as outlined above. And this condition of humanity and other beings of living the sinned, cursed, insignificant, dark, conditional, attached, imprisoned, restricted, limited, killing and shortest life span that continued for centuries and beyond is in the best interest, desire and goal of Satan and evil forces as the opposite of the outcome will guarantee humanity and other beings a place of eternity, association, guardianship, blessing and ultimate honor from God which leaves Satan, dark forces and its agents with no role to play in the Infinite levels of Impurity Transport as every humanity and beings will instantly shift towards the Infinite levels of Purity Transport once that clarity, understanding and experience is practically witnessed by a few humanity and other beings.
