The Market I Radars managed to achieve the same by using endless vital and relevant concepts, contexts, meanings, understandings, clarity, principles, frameworks, foundations, purposes, causes, observations, essences, ideas, designs, discoveries, wisdom, realities, mysteries, consciousness, realities, dimensions, simulations, time, formulas and chemistry of existence and God's design, workings and simulation.

The full Market I Radars full document for the Infinite Purity Visualization which has more than one hundred sections for unlocking the greatest grand mysteries, formulas and workings of the Infinite Purity Visualization will be available as per the request of customers on the address mentioned at the end of the document. The below is an executive insight, introduction, strategic blueprint, grand scheme and summary document

2) Executive Summary and Blueprint of the Infinite levels of Visualization

The Market I Radars for Infinite Purity Visualization clearly understand that God's Source Code for existence is the same for humanity, all other beings and all the infinite ingredients in existence except that the only difference and variation is in the initial onset fixed level of consciousness when coming in to existence (but with perfect and equal balance, fairness, possibilities, opportunities, options, capabilities and potentials) only for the purpose of giving each and every humanity, other beings and all ingredients in existence to observe, witness and understand initially the infinite levels of consciousness dimension, reality, simulation, state of being, time, wisdom, purpose, experience and exposure throughout the infinite universe and at a later stage to chose their path upon their freewill; which means one specific human, being or ingredient embodies all the infinite levels of elements in existence and in the same approach it applies and works for the Infinite levels of Visualization where it consists of all the Infinite levels of Visualization existence elements and ingredients.

As opposed to the centuries old and beyond assumption, narration, fabrication, projection, teaching and preaching that there exist only a few dimensions, realities, simulations, state of being, time and consciousness of humanity, beings, existence and every other element, parameter, ingredient and package which are mostly focused on matter, material, physical, exterior, surface level, external layer, outer contexts and realizations and moreover each and every existence, humanity, being and other elements and ingredients by nature are separated, different, nonidentical, disintegrated, misaligned, non-harmonized, departed, disconnected, divided, split, classified and vary in design, foundations, formulations, workings, looks, shapes, equality, capabilities, potentials, understanding, characteristics, biology, chemistry, physics, sciences and all aspects.

The above narration and understanding has continued to be the overwhelming story still to this date for the reasons that in one hand Satan, dark forces and their agents will have a suitable environment, position and circumstance to influence, manipulate, discriminate, govern, occupy, enslave, imprison, limit, restrict, control and continue to take ultimate authority and say over humanity and other beings' biology, chemistry, mind, heart, energy, resource and spirit by creating, designing, fabricating, narrating and weaponizing endless and unlimited horizontal classifications, identifications, separations, competitions, divisions and groupings across a number of agendas like color, shape, look, profession, blood, IQ, weight, beauty, size, body, food, drink, job, profession, capability, intelligence, brand, product, economy, technology, wealth, finance, infrastructure, resource, land, water, border, service, sector, discipline, subject matter, language, clothing, shelter, culture, habit, tradition, history, luxury, education, health, race, ethnicity, city, country, village, poverty, scarcity, market, speculation, background, personality, character, politics, government,

specialization, hobby, addiction, attachment, dependency, media, sport, gender, age, asset, possession, fashion, ART, choice, talent, skill, religion, faith, interest, entertainment, game, film, music, literature, thought, feeling, perspective, experience, decision making, action, livelihood and other endless variations, separations and classifications.

And on the other hand to greatly undermine the full and infinite wonder and purpose of creation and existence in doing so to discredit the design argument and at the same time to leave no option and space for the case and cause of God by continuously painting and demonstrating the picture of unfairness, injustice, luck, bias, disorder, chance, random, inequality, scarcity, limitation, suffering, misery, cheating, theft, depression, suicide, killing, greediness, purposelessness, separation, doubt, suspicion, disinformation, denial, isolation, destruction, fear, worry, exhaustion, inferiority, dissatisfaction, difficulty, discomfort, hunger, famine, sickness, disease, conflict, struggle, poverty, discrimination, enslavement, war, disagreement, hate, anger, discomfort, death, revenge, scandal, corruption, disaster, sorrow, regret, confusion, hopelessness and other endless negative lists forgetting the fact that the existence of three states of being for every existence which are the Infinite levels of Purity Existence, the infinite levels of Neutral Existence and the Infinite levels of Impurity Existence which means they are only talking about the state of being within the scope of the Infinite levels of Impurity Existence in this case the Infinite levels of Impurity Visualization which is the version and sate of being of impurity, sin and curse under the grand scheme of God's design, workings and simulation by purposely and systematically hiding the other higher levels of state of beings which are the positives, preference and will of God filled with purity, virtues, righteous, honors, elevation, miracle, blessing, eternity, oneness, abundance, satisfaction, fulfillment, transcendence and endless mysteries of which any of the three state of beings are chosen upon the freewill of humanity and other beings.

The purity Market I Radars clearly understands the above initial foundation, source code and design for the existence and operation of the Infinite levels of Visualization abundance, existence, eternity, oneness, harmony, entanglement, convergence, synchronization and alignment; which means humanity and other beings are automatically and unconditionally offered and embody the capability and potential to enjoy the Infinite levels of Purity Visualization given the fact that they are in harmony, alignment, convergence, oneness, singularity and synchronization with the Infinite levels of Purity Visualization protocols, elements, packages and ingredients.

Contrary to the above in one hand humanity and other beings upon their freewill choice can separate and distance themselves and go to the state of being of the Infinite levels of Impurity Visualization where they end up to live negligible, insignificant, lowest, limited, conditional, volatile, cursed and imprisoning life throughout their shortest life span with the lowest, negative and Impurity Visualization dimension, consciousness, time, reality, simulation, wisdom and experience and on the other hand humanity and other beings upon their freewill

choice can remain and bond themselves and enjoy the state of being of the Infinite levels of Purity Visualization where they end up to live eternal life span and with limitless, unconditional, unshakable, virtuous, righteous, blessed, positive, the highest and Purity Visualization dimension, consciousness, time, reality, simulation, wisdom and experience. And as a last resort humanity and other beings can choose to be within the state of being of the Infinite levels of Neutral Visualization where they end up to live relatively average life span and with the average Neutral Visualization dimension, consciousness, time, reality, simulation, wisdom and experience.

The moment humanity and other beings regain the depth of clarity, chemistry, formula, understanding and workings of God's Source Code for oneness preference which is the Infinite levels of Purity Visualization out of all God's permitted Infinite levels of Visualization options, possibilities, alternatives, potentials, opportunities, dimensions, realities, simulations, state of beings and choices that exist within the source code; then the centuries long and beyond quest to activate, secure and experience the Infinite levels of Purity Visualization would come to a close after so much exhaustion, suffering, dedication, commitment, misery, pain, struggle, sin, confusion, narration, distortion, fear, frustration, investment, trial and error, loss, regret, inflammation, disease, relentless, sacrifice, ignorance, darkness, speculation, stress, contradiction, sleepless, analysis, formulation, design, execution, prediction, eagerness, expectation, argument, thought, philosophies, ideas, intervention, medicine, treatment, surgery, simulation, research and endless efforts and attempts.

But the genuine attempts and efforts has been only carried out by the few humanity as it isn't in the best interest and desire of Satan and evil forces for humanity and other beings to secure the state of being of the Infinite levels of Purity Visualization; on the other hand almost all of humanity and other beings were victims of the current and beyond centuries long purposely designed complex programs that were instrumental to make sure humanity and other beings continue to operate and function in the Infinite levels of Impurity Visualization.

The Market I Radars for the Infinite Purity Visualization clearly understand the fact that the existence of Infinite levels of Visualization contrary to the centuries and beyond long belief, conviction, norm, narration and understanding of the existence of only a few options with limited scope, out of the Infinite levels of Visualization, which all **are standardized, preached, mentored, consulted, narrated, projected, taught, understood, cultured, disseminated, organized and measured within the upper layer, surface level, exterior, material, outer part, the lowest, insignificant, negligible, negative and attaching contents, contexts, perspectives, dimensions, simulations, consciousness, time, realities, meanings, substances, purposes, causes, wisdom and related that continue to be adopted by all societies, scholars, researchers, scientists, individuals, countries, religions, cultures, traditions and beliefs in the world;** which as a result become the core causes and reasons, for centuries and beyond, for many humanity and

individuals continue to fail and become helpless to practically internalize, execute, embody, align, integrate, harmonize, converge and stay in connection with God and shift from their Impurity Visualization lives even if many tried their best to understand, follow and execute the general agreed norms, understandings, practices and guidelines and more specifically few of humanity genuinely attempted the same for decades and continue to fail again and again.

The above continues to be the case to this date; it is because of the fact that, out of endless causes, humanity and other beings are operating and functioning on the below challenges and difficulties:

- the continued existence and reality of the lack of an in-depth understanding, wisdom and clarity in the workings, consciousness and design of Infinite levels of Visualization;

- the endless levels of Visualization based horizontal identifications, classifications, competitions, discrimination, undermining, arguments, conflicts, hate, extremism, anger, distraction, distortion, plotting and the race for winning by discrediting the other rather than focusing on the vertical purpose of attaining, securing and having Purity Visualization;

- the ever rising association, occupation, attachment, addictions, dependency, priority, desire and the race for grabbing the insignificant, sinned and temporary external material, finance, money, wealth, property, asset, shiny look, greediness, possession and related lists by many humanity rather then the path towards the attainment of Purity Visualization;

- the ever increasing fall of scholars, mentors, elders, religious and faith leaders, preachers, researchers, agenda setters, media, celebrities and followers, knowingly and unknowingly, in the wrong trap of purposely and systematically designed complex programs, principles, narrations, strategies, frameworks, foundations and philosophies designed and masterminded by Satan, evil forces and their agents for making sure humanity and other beings continue to be separated from God and operate on their sinned lives and Impurity Visualization;

- the wrong messages, preaching and teachings by faith and religious leaders and scholars as if the path towards having Purity Visualization is very complex, requires sacrifice, demand long journey to attain, faced with many discomforts and obstacles, extended waiting and patience,

- the endless lists of wrong messages, norms and practices like big virtues and rewards come after death, ultimate peace and happiness is secured in another life, judgement is given in the end, life at earth is only for a temporary purpose and endless messages and narrations that continue to distract and drag humanity not to take decisive, serious, careful and practical choice and action to shift towards the attainment of Purity Visualization;

- the misinterpreted, distorted and diverted promises, knowingly and unknowingly, that humanity can gain Purity Visualization and subsequent honors if they only continue to follow the usual daily, weekly, monthly and yearly subscriptions and attachments of medicines, mentors, counselors, psychiatrists, gym, churches, mosques and related addictions accompanied by various rituals, programs, attendance, followup, learning, payments and various doings which isn't the case to this date after centuries and millennia practices;

- out of the Infinite levels of Visualization's mandatory and essential elements, ingredients and packages only a few are ingrained in almost all of the counselling, mentor, consulting, coaching, teaching, preaching and religious texts, dogma, culture and tradition; most of the teachings and preaching are focused and given to suit and comfort their followers for the sake of of keeping them and at the same time to attract new followers by deliberately sidelining and leaving the teachings of huge lists of sins and the Infinite levels of Impurity Visualization workings;

- out of the Infinite levels of channels, alignments and protocols to attain Purity Visualization only verbal and reading methods are adopted by many counselors, mentors, coaches, faiths and religions and that is why many of their followers are continuously subjected to many wrong doings, evil exercises, sinful acts and Impurity Visualization;

- the day to day addiction, attachment, dependency and association of humanity with infinite levels of Impurity Visualization that subject them to various restriction, limitation, imprisonment, enslavement, influence, manipulations, bias, unfairness, injustice, inequality, judgement, sabotage, downgrading, harm, anger, stress, inflammation, anxiety, misery, sorrow, regret, ego, pretending, scandal, corruption, denial, confrontation, unfaithfulness, impatience, purposelessness, fatigue, rigidity, ignorance, doubt, confusion, distraction, disturbance, war, weakness, fear, distrust, immorality, revenge, scarcity, rejection, meaninglessness, hopelessness, difficulty, obstacle, disrespect, disinformation, distraction, dis focus, draining and other endless gradual killing elements;

- the lack and absence of even a few individuals for centuries to showcase and demonstrate to humanity with enough clarity, simplification, formula and chemistry the grand scheme of God's workings, designs, consciousness, simulations and realities and what it takes to secure the ultimate, unconditional, unshakable, virtuous, righteous, blessed, eternal, permanent, elevated, the highest and Infinite levels of Purity Visualization

- and endless reasons, causes and justifications for the continued failure of having Purity Visualization.

3) The Grand Scheme Summary of the Three States of Being of the Infinite levels of Visualization

To curb and rectify the above list of centuries old challenges and problems one has to start to understand, have clarity, gain knowledge and secure wisdom on the detail designs, workings, consciousness, chemistry and formula of the three states of beings of the Infinite levels of Visualization which are called the Infinite levels of Purity Visualization, the infinite levels of Neutral Visualization and the Infinite levels of Impurity Visualization.

- There is an existence of infinite, unlimited, endless, continuous and eternal levels of Purity Visualization elements, sub elements and Infinite levels of sub elements and as per God's design, workings and simulations and every humanity , or being, or existence consists of all the existence in it as opposed to the centuries old and beyond information that only dictates the availability of very restricted and limited quantity, level, scope, dimension, simulation, reality and experience of creation and its existence which was purposely designed, crafted, planned, formulated, staged, narrated, propagated and weaponized to discredit and undermine the existence of God and at the same time to keep humanity and other beings under their influence, manipulation, control and authority

- The consciousness is the differentiating factor within the endless lists of the Infinite levels of Purity Visualization and within the source code of God's design, simulation and workings of all existence, everything is one and the same except that the consciousness is the sole factor for each and every existence to have different Infinite levels of Existence or Creation Consciousness at birth for Infinite levels of purpose, cause and experience so that humanity and other beings upon their freewill, choice, experience, understanding, clarity and Faith to move either to the state of being of the Infinite levels of Purity Visualization, or to the state of being of the Infinite levels of Neutral Visualization and or to the state of being of the Infinite levels of Impurity Visualization

Infinite Purity Visualization products don't discriminate access to the market based on any kind and forms of identification and classification; the Infinite Purity Visualization products don't have behind the scene influence and control agenda; the Infinite Purity Visualization products are solely based on the purpose of liberation and independence of humanity and other beings from centuries beyond long trap of suffering and imprisonment; the Infinite Purity Visualization products are guided and under the guardianship of God and the Infinite Purity Visualization products operate on the deepest and highest levels of of dimensions, consciousness, simulation, time, experience and reality

- When humanity and other beings are within the state of being of the Infinite levels of Purity Visualization they have to see, listen, observe, sense, feel and experience the following symptoms, occurrences, happenings and habits in each moment, second, hour, day, week, month, year and throughout their lives which a few them are the utmost, ultimate, continuous, elevated, eternal, permanent, flawless, positive, fulfilling, transcending, unconditional, unshakable, virtuous and righteous Purity Faith n God happiness, Purity Visualization courage, Purity Visualization love, Purity Visualization respect, Purity Visualization generosity, Purity Visualization abundance, Purity Visualization wisdom, Purity Visualization wealth, Purity Visualization confidence, Purity Visualization certainty, Purity Visualization consistency, Purity Visualization trust, Purity Visualization beauty, Purity Visualization marriage, Purity Visualization kids, Purity Visualization health, Purity Visualization Immortality, Purity Visualization healing, Purity Visualization intelligence, Purity Visualization clarity, Purity Visualization observation, Purity Visualization non-judgement, Purity Visualization accountability, Purity Visualization miracle, Purity Visualization forgiveness, Purity Visualization reconciliation, Purity Visualization purpose, Purity Visualization honesty, Purity Visualization thought, Purity Visualization opportunity, Purity Visualization essence, Purity Visualization simulation, Purity Visualization strength, Purity Visualization Freedom, Purity Visualization limitless, Purity Visualization Grace and other endless symptoms and realities of the Infinite levels of Purity Visualization symptoms

- Overall your total measurement and live score of your Purity Visualization at any give time will be =

  100%(the sum of your actual score of each of the Infinite levels of Purity Visualization elements which is Purity Visualization element one + Purity Visualization element two + Purity Visualization element three + Purity Visualization element four + ..Infinite Purity Visualization elements))/(the sum of the ideal, perfect and maximum value of each of the Infinite levels of Purity Visualization elements which is Purity Visualization element one + Purity Visualization element two + Purity Visualization element three + Purity Visualization element four + ..Infinite Purity Visualization elements))

b) Summary of the Infinite levels of Impurity Visualization

The Infinite levels of Impurity Visualization is characterized and channeled by separation, difference, non-harmonization, misalignment, in-synchronizations, non-convergence, limited, cursed, conditional, shaky, non-bonded, temporary, lose, momentarily, imprisonment, enslavement, dependency, upgrading, decelerating, aging, draining, imbalance, descending, non-elevating, disorder, purposelessness, causeless, revenge, conflict, locking, hell, sin, unrighteous, non-awakening, unwholesomeness, competition, downward, disintegrating, in-comprehensive, time consuming, complexity, struggle, non-peacefulness, selfishness, corrupted, imperfection, impurity, fake, audit, devaluation, non-measurement, non-adjustment, dishonor, disrespect, unappreciative, avoidance, unfulfilled, meaningless, essence-less, doubt, dilemma, suspicion,, disbelief, inconsistency, distrust, in-confident, fear, weakness, non-aliveness, non-determination, non-commitment, confusion, judgement, ordinary, usual, traditional, non-discovery, deactivating, disconnectedness, linear and one at a time, valueless, immoral, unethical, division, inequality, arrogance, hate, cruelty, unkindness, unfairness, injustice, scarcity, abuse, manipulation, unsatisfactory, anger, invalidation, disloyalty, senseless, under the influence and control of Satan and other endless elements, parameters, ingredients and packages of the Infinite Impurity Visualization.

Besides below are the key differentiating factors of the Infinite levels of Impurity Visualization from the other states of beings and more or less similar to the centuries beyond long preaching, teachings, beliefs, thinking, assumptions, frameworks, principles, foundations, strategies, models, programs, designs, observations, purposes, causes, perspectives, norms, narrations, understanding, convictions, workings, experiences and practices when it comes to the reality that both operate and function in the negative, sinned and Impurity Visualization except that the Infinite levels of Impurity Visualization operates in an infinite levels of dimensions, simulations, consciousness, time, realities and experiences as opposed to the centuries long and beyond practices which are limited on a few scopes, options, possibilities, alternatives, dimensions, consciousness, time, realities and simulations:

- The Infinite levels of Impurity Visualization state of being is the negligible, negative, volatile, sinned, cursed, darkened, impure and the lowest level of preference and will of God for humanity and other beings to operate, function and live

- The highest levels of separation, divergence, split, non-synchronization, non-harmony, misalignment, non-integration, division, dishonor, non-fulfillment, dissatisfaction, isolation, powerlessness, misery, non-ownership, incompatibility and distance from God and all existence is realized in the Infinite levels of Impurity Visualization

- In the Infinite levels of Impurity Visualization hell, judgement, punishment, penalties, fall, suffering, sin, curse, denial and separation away from God is continuously available, accessible and happening in every moment, second, hour, day, week, month, year and throughout the shortest life span starting from birth; as opposed to the centuries old and beyond narration, preaching and teaching as if they are accessible only after death

- In the Infinite levels of Impurity Visualization everything is time consuming, linear, one at a time, exhaustive, imperfectly aligned, costly, ordinary, surface level, material oriented, difficult to access, very gradual, normal, thinkable and imaginable scenes, unreachable consciousness and wisdom, never ending complexities, undreamed and unthinkable rescue interventions and workings of God, limited touches of beauty and nature realities, restricted marvels and limited purpose dimensions, happiness and peace scarcity, temporary simulations, rare love and faith driven experiences and so much more

- There is an existence of infinite, unlimited, endless, continuous and negligible levels of Impurity Visualization elements, sub elements and Infinite levels of sub elements and as per God's design, workings and simulations and every humanity, or being, or existence consists of all the existence in it as opposed to the centuries old and beyond information that projects the availability of very restricted and limited quantity, level, scope, dimension, simulation, reality and experience of creation and its existence which was purposely designed, crafted, planned, formulated, staged, narrated, propagated and weaponized to discredit and undermine the existence of God and at the same time to keep humanity and other beings under their influence, manipulation, control and authority

- The consciousness is the differentiating factor within the endless lists of the Infinite levels of Impurity Visualization and as per the source code of God's design, simulation and workings of all existence, everything is one and the same except for those who chose to distance and separate themselves away from it and consciousness is different for each and every existence to have different Infinite levels of Existence or Creation Consciousness at birth for Infinite levels of purpose, cause and experience so that humanity and other beings upon their freewill, choice, experience, understanding, clarity and Faith can move either to the state of being of the Infinite levels of Purity Visualization, or to the state of being of the Infinite levels of Neutral Visualization and or to the state of being of the Infinite levels of Impurity Visualization

- When humanity and other beings achieve the highest and negative consciousness they will be in the highest levels of Impurity Visualization out of the Infinite levels of Impurity Visualization and when they are in the lowest and negative consciousness they will be in the lowest levels of Impurity Visualization out of the Infinite levels of Impurity Visualization

- When humanity and other beings are within the state of being of the Infinite levels of Impurity Visualization they will be forced to acquire external support, help, favor, influence, connection, finance, knowledge, information, guidance, advice and mentor as they are accompanied by scarce, costly and continuous struggle, exhaustion, hard work, attempt and trial and error to gain all the infinite scarcity of every existences, elements, ingredients and packages and at the same time they are continuously denied, prevented and punished for the the same by moving contrary to the grand scheme of oneness design, working and simulation whenever they attempt to acquire; moreover they will be affected by whatsoever external conditions, situations, scenarios and circumstances because of the fact that in one hand they are operating and functioning at the Infinite levels of Impurity Visualization dimensions, consciousness, simulations, realities and time which are reachable and accessible by Satan and dark forces and on the other hand they are not continuously guarded, protected, guided, insured and under the guardianship of God except for certain extreme conditions

- Every humanity and beings within the state of being of the Infinite levels of Impurity Visualization can freely, unconditionally, easily, continuously and instantly access, own, use, control and experience all Impurity Existence and subsequently design, simulate, run, operate, govern and execute their attained version level of the Infinite levels of Impurity Existence as per the grand scheme of God's Infinite levels of separation, division and misalignment design, consciousness, reality, dimension an simulation

- The initial source code design, simulation and workings of God makes it very difficult, hard, exhaustive, challenging, dragging and paining when humanity and other beings intend to talk, think, feel, imagine, visualize, discuss, interact, communicate, coordinate, focus, strategy, select, prepare, formulate, analyze, contemplate, decide, design, plan, conspire, plot, act and execute sin and Impurity Visualization every time and every moment because they will be automatically and continuously met with self: dragging, distracting, doubting, confusing, fearing, worrying, conflicting, depressing, stressing, suffering, blurring, angering, corrupting, hating, weakening, attaching, restricting, limiting, imprisoning, dis-empowering, sickening, suffocating, suffering, disturbing, draining, restraining, inflicting, emptying, defeating, unpleasing, disrespecting, cursing, attacking, regretting, annoying, revenging, exhausting, unbalancing, darkening, punishing, complicating, distorting, failing, contradicting, downgrading, down-lifting, unfulfilling, unsatisfying, unsettling, preventing, rejecting, disabling, arguing, minimizing, sabotaging, retarding, dragging, abusing, locking, deactivating, malfunctioning, non-cooperating, disorganizing, deafening, blinding, distrusting, disbelieving, non-aligning, threatening, scaring separating, dividing, resource depriving, decaying, aging, killing and endless natural, biological, judgemental, natural, chemical, physical, neurological, circular, cellular, hormonal, organically, physiological, psychological, genealogical, energetically and spiritually reactions; which is emanated from God's utmost love and respect for humanity and other beings for them to stay away of the Impurity

Visualization and sin by continuously sending warning, teaching, directing and punishing signals to every detail sins they continue to commit and for the purpose of shifting them towards the state of being of the Infinite levels of Purity Visualization upon their freewill contrary to the centuries old and beyond understanding, narration and projection of portraying God as cruel , merciless and punishing creator knowingly and unknowingly but with all these endless lessons, warnings and penalties humanity and other beings continue to be entirely immersed for generations within endless sins, Impurity Visualization and shortening their life spans

- Humanity and other beings within the state of being of the Infinite levels of Impurity Visualization freely, unconditionally, easily, continuously and instantly receive, access, use, adjust and balance the Infinite levels of negative and positive biological, chemical, neurotically, physiological, psychological, cellular, circular, spiritual and other intuition, instinct, dream, signs, signals, symbols, messages, insights and protocols in one hand for the purpose of shifting and transitioning them to the state of being of the Infinite levels of Purity Visualization, on the other hand to upgrade and elevate their position and level upward within the ladder of the Infinite levels of Impurity Visualization and at last to awaken them whenever they momentarily shift downward within the ladder of the state of being of the Infinite levels of Impurity Visualization so that they can transition back to their original state of being position by continuously receiving all the changes, alerts and signals through the instruments and mechanisms of the Infinite levels of negative and positive biological, chemical, neurotically, physiological, psychological, cellular, circular, spiritual and other intuition, instinct, dream, signs, signals, symbols, messages, insights and protocols

Those humanity and other beings that don't continuously and non-stop embody, embrace, posses, experience and live the above mandatory essential Infinite levels of Purity Visualization elements are suffering, struggling, limited, restricted, separated, blocked, protected, deactivated, imprisoned, enslaved, blinded, deafened, shielded, influenced, biased, manipulated, controlled and continue to live in every moment, second, hour, day, week, month, year and throughout their negligible and Impurity Faith life under survival, emergency, cursed, sinned and scarcity mode as per the desire, delight and purpose of Satan, dark forces and their agents. At the same time those humanity and other beings will be only eligible to face ans suffer the lowest, negative, continuous, uninterruptible, shaky and Impurity Visualization punishment, penalty, curse,

scarcity, sin, hell, downfall and dishonor as they chose and decide, upon their freewill, to move and live with the non-preference and negative direction, path, guidance, guardianship and will of God rather that is best suited and compatible with the version of God's source code and design of separation, difference, division, greediness, scarcity, conflict, competition, disagreement, misalignment, disintegration, non-synchronization, divergence, doubt, suspicion, random, isolation and non-ownership from all existence and creation only available for those in the state of being of sinning as a sign of punishment and penalty for the sins they are continuing to commit and at the same time for their subsequent shift, transition and return to the state of being of the Infinite levels of Purity Visualization which they are best suited and compatible with; as they continuously and non-stop think, feel, observe, imagine, focus, visualize, channel, select, decide, act, experience and live throughout their insignificant Impurity Faith life to embrace, embody, converge, bond, align, synchronize and become compatible with the desire, purpose and goal of Satan and dark forces which are the Infinite levels of Impurity Visualization's conditional, shaky, sinned, cursed, deactivated, locked, non-elevated, temporary, volatile, harmful, negative, insignificant, imprisoned, dependent, non-cleansed, imperfect, impurity, unholy, dirty, unessential, darkened, emergency and survival functioning, non-mandatory and meaninglessness elements, ingredients and packages of the Infinite levels of Impurity Visualization elements.

And that is why centuries long and beyond attempts and trials by humanity and other beings to lead, attain and secure meaningful, purposeful, virtuous, righteous, blessed, elevated, significant, eternal, pure, heavenly, peaceful, fulfilling and holy life always continue to fall on the contrary accompanied by conflict, war, disagreement, separation, doubt, suspicion, revenge, attack, plot, corruption, confusion, darkness, distraction, destruction, sickness, pain, disease, fear, anger, worry, hate, contradiction, confusion, failure and dissatisfaction as they continue disregard and reject to embody, embrace, integrate and bond the vital, critical and oneness elements, ingredients and packages of the Infinite levels of Purity Visualization as outlined above. And this condition of humanity and other beings of living the sinned, cursed, insignificant, dark, conditional, attached, imprisoned, restricted, limited, killing and shortest life span that continued for centuries and beyond is in the best interest, desire and goal of Satan and evil forces as the opposite of the outcome will guarantee humanity and other beings a place of eternity, association, guardianship, blessing and ultimate honor from God which leaves Satan, dark forces and its agents with no role to play in the Infinite levels of Impurity Visualization as every humanity and beings will instantly shift towards the Infinite levels of Purity Visualization once that clarity, understanding and experience is practically witnessed by a few humanity and other beings.
